Advancing research for Texas and beyond

Texas A&M AgriLife Research is Texas’ premier agricultural, natural resources and life sciences research agency. AgriLife Research’s portfolio includes all aspects of agriculture and life sciences research in collaboration with other state agencies, universities, government organizations and industry groups. Our agency delivers life-sustaining, industry-changing research impacts to Texans and throughout the world.

Comprehensive research capability

AgriLife Research operates 13 research centers that are strategically located to take advantage of Texas’ full climatic and geographic diversity. Our expansive enterprise also includes the advanced technologies and research capabilities of more than 600 Ph.D. level scientists in AgriLife Research, the Texas A&M College of Agriculture and Life Sciences, the School of Veterinary Medicine and Biomedical Sciences, and eight interdisciplinary institutes.

Four interconnected strategic priorities

- Leading-edge research and innovations
- Economic strength
- Healthy living
- Sustainable production systems
