Advancing research for Texas and beyond

Texas A&M AgriLife Research is Texas’ premier agricultural, natural resources and life sciences research agency. AgriLife Research’s portfolio includes all aspects of agriculture and life sciences research in collaboration with other state agencies, universities, government organizations and industry groups. Our agency delivers life-sustaining, industry-changing research impacts to Texans and throughout the world.

Comprehensive research capability

AgriLife Research operates 13 research centers that are strategically located to take advantage of Texas’ full climatic and geographic diversity. Our expansive enterprise also includes the advanced technologies and research capabilities of more than 600 Ph.D. level scientists in AgriLife Research, the Texas A&M College of Agriculture and Life Sciences, the School of Veterinary Medicine and Biomedical Sciences, and eight interdisciplinary institutes.

Four interconnected strategic priorities

- Leading-edge research and innovations
- Economic strength
- Sustainable production systems
- Healthy living

$160M+
external grants awarded FY22

~$300M
total research expenditures FY22

600+

Selected Federal Awards FY22

1. Sustainable Agricultural Intensification and Enhancement through the Utilization of Regenerative Agricultural Management Practices
   - USDA-NIFA | $10 million
2. Coordinated Agricultural Project - Advanced testing and commercialization of novel defensin peptides and therapies for HLB control
   - USDA-NIFA | $7 million
   - USAID | $4 million
4. Analysis Of Farm and Food Policy, 2022-2023
   - USDA-Office of the Chief Economist | $2.9 million
5. Circadian Regulation of Cellular Homeostasis
   - DHHS, NIH National Institute of Environmental Health Sciences | $2.5 million
6. High energy eBeam irradiator and convertible X-ray system and research activities
   - DOE- National Nuclear Security Administration | $2.5 million
   - DOE- Office of Fossil Energy | $2.5 million
8. Immune signal perception and integration by cell surface receptors and peptide ligands
   - DHHS, NIH National Institute of General Medical Science | $1.8 million
9. Function and Mechanism of Coat Protein Complex I in RNA Silencing
   - NSF | $900,000

Supporting Texas commodities

Texas A&M AgriLife Research initiatives that support Texas commodities are a reflection of our agency’s dedication to producers and thriving industry across the state. Each year, AgriLife Research renews this commitment through millions of dollars invested in a prosperous future for Texas agriculture.

AgriLife Research Commodity Sponsors FY22

- Alliance for Potato Research and Education
- Bee Informed Partnership, Inc
- Cotton Incorporated
- Dairy Research Institute Inc
- National Cattlemen's Beef Association
- National Corn Growers Association
- National Peanut Board
- National Pork Board
- Plains Cotton Growers, Inc.
- Potatoes USA
- Texas Cattle Feeders Association
- Texas Corn Producers Board
- Texas Peanut Producers Board
